VREDESTEIN
TYRES

Performance driven for over a century

Rubber has been running through our veins since the beginning of the 20th century, underpinned by an unrelenting drive to constantly improve the performance of our products. Innovation has always been a key concept within the Vredestein brand. Our international R&D centres are constantly engineering and designing New generations of tyres and are often rewarded with top results in independent international tyre tests. Our products and services empower confident people to have the freedom to drive their own way.

Delivering a premium product portfolio

This ambition enabled us to become a first-class, world-renowned European brand of premium tyres. Today, Vredestein delivers an impressive portfolio of premium tyres for passenger cars, agricultural & agri-industrial applications and bicycles.

Performance and design go hand in hand

In 1997 Vredestein embarked on a New strategy aimed at blending aesthetic design with ultra high performance tyres. This led to a unique partnership with the world famous Italian designer Giorgetto Giugiaro, whose work includes the Volkswagen Golf I and Maserati 3200 GT. Giugiaro was nominated car designer of the century by the world's auto press in 1999 and we have continued to work together with his design studio on numerous great tyre products.

Part of an ambitious global company

Since 2009 Vredestein has been a brand of Apollo Tyres Ltd, a global player in the tyre business with production locations and sales offices on four continents.

ALL SEASON TYRES

QUATRAC PRO +

ALL-SEASON WITH A BIG PLUS

BENEFITS

Best-in-class on wet roads

Upgraded snow performance

Improved fuel efficiency

FEATURES

Strong water evacuation against aquaplaning

5% better on snow grip and acceleration*

5% lower rolling resistance*

* Data based on internal testing against predecessor Quatrac Pro in development size 245/45 R 18 100Y XL

QUATRAC PRO

FIRST ALL-SEASON TYRE FULLY FOCUSED ON UHP SEGMENT

BENEFITS

Short braking distance and superb handling on wet roads

Great safety, even when winter surprises you

Tailor-made for powerful cars and SUVs

FEATURES

More than 10% better wet grip*

5% improvement on snow handling*

Performance oriented construction and material design

* Data based on internal testing compared to predecessor Quatrac 5 in development size 245/45 R 18 100Y XL

QUATRAC PRO EV

FIRST ALL-SEASON TYRE FULLY DEDICATED TO ELECTRIC VEHICLES

BENEFITS

Extended range on electric and hybrid vehicles*

Designed for heavier EVs: 6% better handling* and improved stability while cornering

No compromise on safety in any weather condition

FEATURES

15% Lower rolling resistance* due to advanced compound materials

Higher belt and tread stiffness; asymmetric tread features

Severe snow certified; 4% better dry braking*

* Data based on internal testing compared to standard All-Season model Quatrac Pro in development size 245/45 R19 102W XL

QUATRAC

PERFECTLY BALANCED SEASONAL PERFORMANCE

BENEFITS

More than 10% improvement in aquaplaning resistance*

Improved handling across dry, wet & snow surfaces

20% improvement in tyre life*

FEATURES

New concept 'deep V' tread pattern

10% larger net contact area*

Next-generation compound with multi-functional polymers

* Data based on internal testing compared to predecessor Quatrac 5 in development size 205/55 R16 91V

QUATRAC 5

THE BEST TYRE FOR ALL SEASONS

BENEFITS

Excellent braking and handling on wet surfaces

Superior braking and handling on snow

Optimised stability, acceleration and handling

FEATURES

Tread pattern designed for efficient water drainage

Inner tread design optimised for winter performance

V-shaped grooves at centre and asymmetric outer longitudinal groove

COMTRAC 2 ALL SEASON⁺

HIGH SAFETY AND COMFORT WHILE DRIVING WITH HEAVY LOADS

BENEFITS

Retaining high level of wet & snow performance*

Over 20% improvement in tyre life*

5% Improved stability when driving with heavy loads and higher control while cornering*

FEATURES

Tailor made compound to balance snow & wet

Optimized tread compound with special grades of reinforcing filler

Higher density of metallic cord for steel belt to increase tread stiffness

* Data based on internal testing compared to predecessor Comtrac 2 All-Season in development size 235/65 R 16 C 115/113 R

CUTTING PERFORM

A blue sports car is shown from a low angle, focusing on the front wheel. The car is parked on a snowy, gravelly surface. In the background, there are snow-covered mountains and evergreen trees under a bright sky. The car's headlight is on, creating a lens flare effect. The wheel is a multi-spoke alloy with a Vredestein logo in the center. The tire has 'QUATRACT PRO' written on the sidewall.

IG EDGE RMANCE:

VREDESTEIN
TYRES

ALL TERRAIN TYRES —

COMFORTABLY RUGGED

BENEFITS

Excellent grip on all surfaces

Refined for on-road civility

Built rugged for off-road capability

FEATURES

5th Gen compound with full depth interlocking sipes; 3PMSF verified

Herringbone grooves and multi-pitch technology

Robust construction & jagged edge shoulder design

WINTER TYRES -

WINTRAC PRO

UNRIVALLED WINTER PERFORMANCE FOR THE MOST POWERFUL CARS

BENEFITS

Maximum grip while cornering

Short stopping distance on wet roads

Great controllability, even at high speeds

FEATURES

More than 15% better handling in snow*

10% improvement on wet braking*

Speed rating Y available for many sizes (up to 300 km/h)

* Data based on internal testing compared to predecessor Wintrac xtreme S in development size 225/50 R 17 98V XL

WINTRAC

PERFORMANCE TYRE FOR THE FULL WINTER SEASON

BENEFITS

Extended tyre life up to an additional 10,000 km*

10% improvement in aquaplaning prevention*

Enhanced grip on wet and snow surfaces

FEATURES

New-generation high-density silica compound

Improved tread design with patented 3D sipes

5% more rubber in contact with the road*

* Data based on internal testing compared to predecessor Snowtrac 5 in development size 205/55 R16

SNOWTRAC 5

SAFE AND COMFORTABLE TYRE IN WINTRY CONDITIONS

BENEFITS

Outstanding braking performance on snow and ice

High level aquaplaning resistance

Excellent braking performance on wet roads

FEATURES

Tread pattern with optimised number of snow sipes

Efficient water draining tread design

Tread compound designed for high level wet grip

COMTRAC 2 WINTER

STABILITY AND RELIABILITY DURING WINTER

BENEFITS

5% improvement on snow handling and snow braking*

Tyre life improved by over 20%*

Improved stability and controllability

FEATURES

Compound stiffness optimised to align with pattern stiffness

Optimized tread compound with special grades of reinforcing filler

Internal construction optimized for higher stiffness

* Data based on internal testing compared to predecessor Comtrac 2 Winter in development size 235/65 R 16C 115/113 R

For current label values, see www.vredestein.com

NORDIC

WINTRAC ICE

PREMIUM PERFORMANCE IN THE MOST SEVERE WINTER CONDITIONS

BENEFITS

21% improvement in handling on ice*

20% improved handling on snow*

5% improved braking on snow*

* Data based on internal testing compared to predecessor Arctrac in development size 205/55 R16

FEATURES

New stud design plus optimised distribution of studs

High density of winter sipes at different angles

Innovative silica tread compound

NORD-TRAC 2

SOFT COMPOUND TYRE DESIGNED FOR VERY LOW TEMPERATURES

BENEFITS

Outstanding grip on snow and ice, including in very low temperatures, specially developed for the Scandinavian countries, the Baltic States and Russia

Short braking distance
Fast acceleration in winter conditions

Optimal capacity to shake off mud and snow
Low noise production

FEATURES

Rubber compound with reduced hardness and unique reactive fillers

Zigzag sipe pattern

Subtle directional V-tread

SUMMER TYRES -

ULTRAC VORTI R⁺

SUPREME SPORTINESS FOR THE MOST POWERFUL CARS

BENEFITS

High level of control, even at high speeds

Direct and predictable steering precision

Superior dry braking performance

FEATURES

Tyre contour designed for minimum deformation while cornering

Significantly larger apex base combined with stiffer sidewall construction

Tread compound with well-balanced polymer and resin mix

ULTRAC VORTI

CONTROL AND PRECISION HAVE NEVER BEEN SPORTIER

BENEFITS

Superior wet and dry braking performance

Precise and responsive steering at high speeds

Very good controllability, especially while cornering

FEATURES

High traction tread compound for increased grip

Stiff and solid outer shoulders

Dedicated designs for front and rear axle

ULTRAC VORTI⁺

CONTROL AND PRECISION HAVE NEVER BEEN SPORTIER

BENEFITS

Precise and responsive performance, especially while cornering

Superior wet and dry braking

Lower fuel consumption and extended tyre life

FEATURES

Stiffer shoulder and sidewall construction with 13% larger bead area*

High-traction tread compound for increased grip

Next generation body compounds to reduce rolling resistance

* Data based on internal testing compared to predecessor Ultrac Vorti in development size 245/45 R18 (Y) XL

ULTRAC

DRIVE LIKE YOU'VE NEVER DRIVEN BEFORE

BENEFITS

15% improvement in dry and wet handling*

10% better braking on dry & wet surfaces*

More driving comfort and a quieter ride

FEATURES

Updated tyre cavity with a squarer footprint

Next-generation tread compound with stiffer tread blocks

Optimised sidewall construction with increased flex zone

* Data based on internal testing compared to predecessor Ultrac Satin in development size 225/45 R17 94Y

ULTRAC SATIN

DRIVING PLEASURE THROUGH ADVANCED TECHNOLOGY

BENEFITS

Superior braking power on wet roads

Comfortable and controlled steering

Fuel efficient (B-label for rolling resistance)

FEATURES

3 wider circumferential grooves for better water drainage

Z-shaped grooves in centre rib offer higher stiffness

Optimized tyre construction and profile

SPORTRAC 5

DRIVING SAFE, COMFORTABLE AND QUIET

BENEFITS

Short stopping distance on wet roads

Absorbs bumps, improves driving comfort

Quick and precise steering response

FEATURES

Wider circumferential grooves for better water drainage

Optimised radial stiffness

Z-shaped grooves for higher stiffness at centre rib

T-TRAC 2

COMFORTABLE AND ENERGY-EFFICIENT WITH A HIGH SAFETY RESERVE

BENEFITS

Good braking and handling capabilities on wet roads

Low noise level

High comfort level

FEATURES

Full silica tread compound with a fine-tuned profile

Optimised profile block distribution

Optimised design of contour and construction to absorb bouncing

COMTRAC 2

EFFICIENCY, SAFETY AND COMFORT IN ONE

BENEFITS

Improved stability and controllability while driving with heavy loads

High handling and braking safety on wet roads

Reduced fuel consumption

FEATURES

15% better controllability*

20% improvement on wet grip*

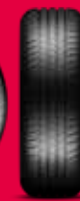

15% lower rolling resistance*

* Data based on internal testing compared to predecessor Comtrac in development size 235/65 R 16C 115/113R

CLASSIC TYRES —

SPRINT CLASSIC

CLASSIC LOOK COMBINED WITH CONTEMPORARY PERFORMANCE

BENEFITS

High safety reserves on dry and wet roads

Short braking distance

Suitable for speeds up to 270 km/h

FEATURES

Classic look combined with contemporary technology*

Sophisticated and modern tread compound

Speed index H, S, V, W

Sprint +

HIGH-TECH PERFORMANCE, MODERN-CLASSIC DESIGN

BENEFITS

Complements the design of your modern classic car

Great controllability while cornering

Modern performance on both dry and wet roads

FEATURES

Modern-classic tread pattern and sidewall design

Asymetric tread pattern

State-of-the-art construction and material technologies

GRIP *Classic*

SPECIALLY DESIGNED TYRE FOR CLASSIC FOUR-WHEEL DRIVE VEHICLES

BENEFITS

Excellent grip on sand and mud

Good handling and braking on wet roads

Improved aquaplaning reserves

FEATURES

Striking profile with optimised tread depth

Silica tread compound

Extra tread depth

SNOW *Classic*

CLASSIC LOOK COMBINED WITH CONTEMPORARY PERFORMANCE

BENEFITS

Good grip on wet and snowy roads

Possibility to stud the tyre for extra grip on icy roads

FEATURES

Optimised tread compound and contour

Stud holes

TRANSPORT *Classic*

TIMELESS FEEL COMBINED WITH THE LATEST TECHNOLOGY

BENEFITS

Safe and stable driving performance with good handling

Optimal grip on wet roads

Accurate steering response

FEATURES

Solid shoulders

Wide longitudinal grooves

Modern sidewall structure

1000

GENERAL SALES CONDITIONS APOLLO TYRES

1. DEFINITIONS

The following definitions apply to these General Sales Conditions:

Apollo Tyres: Apollo Tyres (NL) BV, with its registered office in

Enschede and its dependent companies in the Netherlands;

GSCs:

Agreement: The General Sales Conditions in question;

Customer: Every agreement referred to in art 2.1.;

Customer: Anyone who enters into an agreement with us as

referred to in art. 2.1.;

Days: All calendar days;

Complaints: All customer complaints pertaining to the quality

or quantity of the goods delivered;

Damages: Any material and/or immaterial damages (that could

be) incurred as a direct or indirect result of an event;

Pre-order: A (purchase) order for tyres that customers intend to

purchase from Apollo Tyres, and for which a

(purchase) order was placed with Apollo Tyres by

or on behalf of the customer.

We/us: Apollo Tyres.

Incoterms: The Incoterms as issued by the International Chamber

of Commerce (ICC)

2. APPLICABILITY

2.1 These GSCs apply to and are part of:

a) All our offers and agreements;

b) All commitments that are the result of these agreements;

c) All the quotations made by us before entering into these agreements.

2.2 The general conditions of the customer are explicitly overruled.

2.3 The provisions in art 2.1. and 2.2 as well as the other provisions in these GSCs can only

be deviated from with explicit written consent, signed by both parties.

2.4 Should any provision in these GSCs be inapplicable or declared null and void, all other

provisions will remain valid. Any provision that is non-applicable or declared null and

void will be subject to legal conversion under article 3:42 of the Dutch Civil Code.

3. CONCLUSION OF AGREEMENTS

3.1 Our quotations and offers are without prejudice, even when they include a deadline

for acceptance.

3.2 Customer pre-orders are an irrevocable offer to Apollo Tyres to purchase tyres

from Apollo Tyres.

3.3 Pre-orders from customers are never binding for Apollo Tyres and do not

amount to the conclusion of an agreement, even if the order is processed or incorpo-

rated in the internal ordering system of Apollo Tyres.

3.4 An agreement is concluded by: - an explicit written confirmation from Apollo

Tyres sent to the customer - the delivery of the products and then only in

relation to the products which are delivered according to the packing slip, when no

explicit written confirmation has occurred

3.5 When the explicit written confirmation referred to in article 3.4. differs in terms of

numbers or delivery terms from the pre-order of the customer, this does not amount

to a new offer from Apollo Tyres or a rejection of the customer's pre-order. It

amounts to a contract between Apollo Tyres and the customer corresponding

with this explicit written confirmation.

4. PRICES

4.1 If a price has not been determined in the agreement between Apollo Tyres and

the customer, the prices on the day of delivery apply.

4.2 We maintain the right to pass on all cost increases to the customer. These cost

increases include (but are not limited to): wages, raw material costs, transport costs,

exchange rates, insurance premiums, and taxes and duties imposed by the govern-

ment. We shall inform customers of any passed-on costs in writing.

4.3 Unless agreed otherwise, our prices are net prices excluding VAT, other taxes and

duties, transport costs and insurance costs.

5. DELIVERY AND RISK

5.1 When we are responsible for the goods transport, we are free to choose the means of

transport used.

5.2 We are entitled to deliver in instalments and invoice these deliveries separately.

5.3 We maintain the right to ship goods to the customer on a 'cash on delivery' basis, and

to annul the agreement if the customer refuses to pay for the goods when they arrive

at their destination.

5.4 Delivery of the goods will be DDP as meant in the Incoterms 2010 unless otherwise

agreed. For an explanation of the delivery conditions the Incoterms are applicable, as

they read on the date the agreement is concluded.

5.5 The indicated delivery terms can never be regarded as deadlines. In case we can be

held accountable for any shortcomings regarding delivery obligations, customers

must provide a written notice of default, and give us a reasonable term to fulfil our

obligations, without the customer and/or third parties being entitled to claim any

damages or remuneration from us.

5.6 If we have to store goods after delivery, for whatever reason, this will be charged to

and be at the risk of the customer. Apollo Tyres reserves the right to suspend its

obligation to deliver the stored goods until the claimable invoices have been paid in

full by the customer. If, in our opinion, storage is no longer expedient in view of the

storage costs, the recoverability of the selling price or the fulfilment of other obliga-

tions by the customer, and the customer has not picked up the goods within five

days of being summoned in writing, we maintain the right to take possession of the

goods at the risk and expense of the customer, claim any resulting income, and include

this in any calculation of the customer's debt to us. In this case customers are liable for

all damages and costs.

5.7 With the exception of the possibilities referred to in these general conditions, Apollo

Tyres is not obliged to take back any goods delivered.

6. FORCE MAJEURE

6.1 If as a result of force majeure we cannot fulfil one or more of our obligations, we

maintain the right to annul the agreement in full or in part by sending written notifica-

tion to this effect to the customer. 6.2. We maintain the right at any time to annul the

agreement, if, as a result of a shortcoming for which we cannot be held accountable,

we cannot fulfil our obligation within 30 days of the commencement thereof.

6.2 Neither in case of art. 6.1. nor in case of art 6.2. are we liable for any damages and

costs incurred or the remuneration of profits made.

6.3 Force majeure includes any circumstances beyond our control, such as war, the risk of

war, civil unrest, fire, strike, blockade, strikes, picket roadblocks, factory failures,

failures in the delivery of power and/or raw materials/semi-manufactured products,

illness of personnel, and failure of (sub)contractors to fulfil their obligations (on time).

6.4 If the (remaining) goods or services to be delivered by Apollo Tyres experience a

delay of more than two months due to force majeure, customers have the right to

consider the agreement as annulled by sending a written statement of annulment to

Apollo Tyres. In this case Apollo Tyres is entitled to remuneration of any

costs made up to the moment the annulment statement is received.

7. PAYMENT

7.1 Unless agreed otherwise, our invoices must be paid within 30 days after the date of

the invoice. All payments must be made free of charge to us at our office or through

money transfer onto our (bank) accounts.

7.2 If customers do not fulfil the payment obligations within the agreed term, they are in

default and obliged to pay an interest of 1.5% per month over the total amount due,

whereby a part of a month is considered as a month. After the end of the month, the

amount on which the interest is charged is increased by the interest due that month.

7.3 If Apollo Tyres has to take extrajudicial measures when a customer is in default,

which explicitly includes injunctions, further summons or collection measures taken

by or on behalf of Apollo Tyres, the costs thereof are charged to the customer.

These extrajudicial costs are at least 15% of the invoice amount with a minimum of

€ 150.00. If Apollo Tyres incurs any judicial collection costs, these are also at the

expense of the customer. The height of these costs is determined based on the

expenses of the lawyer and/or bailiff responsible for the collection.

7.4 Customers are not authorised to deduct, dock or pass on any amount on payments

due to a reclamation from their side.

7.5 If customers do not fulfil their payment and purchasing obligations completely or in

time, and are in default due to that fact, Apollo Tyres has the right to annul the

concluded agreement without judicial intervention. In this case, customers are liable

for any damages suffered by Apollo Tyres, including (but not limited to) loss of

profits and transport costs.

7.6 Apollo Tyres maintains the right – both before and after concluding the agree-

ment – to demand that customers pay a security or in advance; in accordance with

article 8.

8. PROVISION OF SECURITY

Whenever there is any reasonable doubt regarding the payment capacity or solvency of

customers, we maintain the right at any time to demand payment in advance or a security

from these customers to ensure they meet their obligations. If customers refuse to fulfil

such a demand, we maintain the right to annul the agreement. If delivery has already taken

place, customers must return the goods to us at their expense within a week after the date

of our written notification that the agreement has been annulled. Until we have received

and approved them, the goods are at the risk of the customer.

9. ANNULMENT

9.1 If customers fail to fulfil their obligations resulting from these GSCs or the agreement

concluded with Apollo Tyres (in due time), or fulfil them inadequately, Apollo

Tyres maintains the right to annul the agreement or the part that has yet to be

realised, without liability and without judicial intervention, and reclaim the goods

delivered that have yet to be paid for. 9.2. If we use our right to annul the agreement in

full or in part, the annulment will be effectuated by means of a written notification to

this effect.

9.2 If we annul the agreement, customers are obliged to reimburse any damages, includ-

ing (but not limited to) loss of profits and other losses, and any incurred costs, unless

the annulment was based on the provisions in art 6.2. The customer is not entitled to

any claims for the remuneration of damages and costs.

9.3 When the agreement is annulled, the already delivered goods must be returned to us

free of charge. We are also entitled to demand the immediate surrender of these

goods from whoever has them in possession. The goods will continue to be at the risk

of the customer until they have been received and approved.

9.4 Apollo Tyres also has the right to annul the agreement whenever a customer has

petitioned for a moratorium on payments/bankruptcy or debt rescheduling. In this

case the customer must inform Apollo Tyres immediately.

10. RETENTION OF TITLE/NON-POSSESSORY PLEDGE

10.1 All goods (to be) delivered by us remain our property until the customer has fulfilled

all the obligations resulting from all agreements with Apollo Tyres (prior or later)

in full. Obligations as referred to in the previous sentence include (but are not limited

to) the obligation to pay interest and (extrajudicial) costs as referred to in art.7 of

these GSCs.

10.2 In so far as we have other claims on the customer than those referred to in art. 10.1.

and have delivered goods to the customer that do not hold a retention of title, the

customer shall establish a non-possessory pledge to our benefit to ensure that the

customer's obligations are fulfilled, which we pledge to accept. Immediately upon

request, customers will sign a deed to establish a pledge, and vouch for their authority

to pledge these goods, and state any rights that may apply to these goods.

10.3 Customers have the right to resell or process all the goods that fall under the retention

of title/non-possessory pledge in a normal way and within the normal activities of

their factory/business. With the exception of that which is stated in the previous

sentence, customers cannot sell, surrender, transfer or limit to our disadvantage the

judicial or factual right of disposal the goods as referred to in this article to third

parties or in any way.

10.4 If customers resell the goods as referred to in the previous provision, they must estab-

lish an undisclosed pledge to our benefit on the claim(s) towards the buyer resulting

from the sale.

10.5 Customers must maintain the goods carefully, storing them separately from other

goods and recognisable as being our property. They are also obliged to insure the

goods against all calamities at the value we invoiced. If the goods are lost or damaged

as a result of a calamity the insurance money must be paid to us. Customers must

inform their insurance companies of these obligations, and, at our request, provide the

names and addresses of these insurance companies and copies of the insurance

policies. We have the right to inform the insurance companies that the insurance

money for the goods we delivered should be paid to us. Additionally, immediately

upon our request, the customer must establish a non-possessory pledge on his claims

involving the insurance company, in so far as this was not yet legally established.

10.6 We are entitled to annul the agreement when a customer is in default with regard to

the abovementioned obligations as referred to in this article. Customers are deemed

to be in default whenever they act contrary to one of these obligations. A notice of

default is therefore not required.

11. QUALITY AND COMPLAINTS

11.1 We guarantee the soundness of the goods delivered by us and the materials used,

provided that the goods are stored in the normal, careful manner and used for the

purpose for which they were manufactured, in accordance with our instructions.

- 11.2 The customer must count, measure, weigh and check the goods for visible defects and inspect them in the usual way for invisible defects immediately upon delivery and before storing or using them. The customer must mention all visible loss and defects on the delivery documents. When the customer refrains from this, we reserve the right to decline these complaints. Once goods have been taken into use, they are considered to be in accordance with the agreement, unless an item is shown to have an invisible defect that could not have been determined in the usual manner. Complaints regarding the quality of the delivered goods are only processed if they were delivered as 'first quality' goods.
- 11.3 Complaints regarding numbers, sizes and weight, visible or easily detectable defects must be submitted in writing as soon as possible, and at the latest eight days after they were delivered. If we have not received a written complaint within this period, the goods are considered to be in accordance with the agreement.
- 11.4 If an item we delivered is shown to have an invisible defect, a complaint must be submitted to us in writing as soon as possible, and no later than one week after the defect was or could have been determined.
- 11.5 The customer is no longer entitled to any claims towards us, if:
- The term for complaints has been exceeded;
 - An invisible defect is detected more than a year after delivery;
 - For car tyres the term as in 11.5 section b), is extended, in principle by three years after the production date, unless another term is determined in our current price list/product brochure;
 - For agricultural tyres the term as in 11.5 section b), is extended, in principle by three years after the production date, unless another term is determined in our current price list/product brochure;
 - For industrial tyres the term is as in 11.5 section b), is extended, in principle by three years after the production date, unless another term is determined in our current price list/product brochure;
 - For bicycle tyres the term is as in 11.5 section b), is extended, in principle by three years after the production date, unless another term is determined in our current price list/product brochure.
 - For truck, trailer and bus tyres the term is as in 11.5 section b), is extended, in principle by three years after the production date, unless another term is determined in our current price list/product brochure.
- 11.6 If an item suffers a defect, for which a complaint was submitted in time, we are only obliged to repair or replace the item, or entitled to annul the agreement and remunerate the purchasing price paid. Which option we choose to use is exclusively at our discretion.
- 11.7 If we decide to replace an item or annul the agreement and remunerate the purchasing price paid, we are entitled to charge the customer a users' fee. This fee pertains to the period the item was used by the customer or a third party and is in proportion to the purchasing price as the period of use is in proportion to the normal lifespan of the item.
- 11.8 Even when customers believe that a delivered item is unsound, they must fulfil all their obligations. They are not entitled to offset their alleged counterclaim to us against this payment obligation toward us.
- 11.9 We will only accept return shipments if they are free of charge. Credit slips are only sent to the customer if we have explicitly agreed with the customer to do so.
- 12. LIMITATION OF LIABILITY**
- 12.1 If an item shows a defect for which a complaint has been received in time, we are not bound to pay the customer or third parties further damages than those resulting from art. 11.
- 12.2 Apollo Tyres is only liable for damages suffered by the customer or third parties that are the direct and exclusive result of intent or gross negligence from the side of Apollo Tyres, in accordance with what is determined hereafter.
- 12.3 Remuneration only applies to damages for which Apollo Tyres is insured, and only in so far as the insurance company decides to pay out, or damages for which Apollo Tyres should reasonably have been insured, in view of the customary practice in the industry in which Apollo Tyres is active. The following limitations and situations apply in which there is no case of intent or gross negligence as referred to in section 1, and the liability of Apollo Tyres, regardless of whether there is insurance or whether the insurance company has decided to pay out and regardless of the basis for liability, is limited as follows:
- Apollo Tyres is never liable for damages or defects to or caused by the goods it delivered or supplied that are the result of: The (possibly incompetent) use of the possible unsuitability of the items themselves, as well as the use of specific items, materials, parts or constructions that are explicitly ordained by or on behalf of the customer (whether or not in deviation of the applicable regulations), or that have been made available to Apollo Tyres by the customer or third parties brought in by Apollo Tyres;
 - Apollo Tyres is never liable for damages on the side of the customer or third parties that are the direct or indirect result of the verbal or written recommendations provided by or on behalf of Apollo Tyres or of Apollo Tyres omitting to take (timely or adequate) measures;
 - In case of verbal information provided by us or on our behalf, Apollo Tyres is never liable for damages resulting from misunderstandings or incorrectly transferred information;
 - In case of liability based on this article, Apollo Tyres is never bound to compensate higher damages than the net invoice value of the delivery or provided service concerned up to a maximum of € 50,000.
 - Things that do not apply for remuneration are so-called trading losses or consequential losses (including interruption of operations, other expenses, loss of income and the like), whatever the cause. The customer can choose to take out insurance against these types of damages;
 - The damages payable by Apollo Tyres will be mitigated if the price or remuneration payable by the customer is small compared to the scale of damages incurred by the customer.
- 12.4 The customer is bound to indemnify Apollo Tyres, and third parties brought in by Apollo Tyres, against any damage claims from third parties as a result of the use or application of the delivered items or services.
- 12.5 If the customer does not (adequately or in due time) comply with one or more of the obligations resulting from the agreement concluded with Apollo Tyres or these GSCs, the customer is in default, without further notice of default, and fully liable for all damages suffered by Apollo Tyres and third parties brought in by Apollo Tyres as a result, without prejudice to the other rights and competences of Apollo Tyres based on the law or these GSCs. This in accordance with what is determined in section 3.

13. THIRD PARTY INTELLECTUAL PROPERTY RIGHTS

- 13.1 Without prejudicing what is determined in these GSCs, Apollo Tyres maintains the right and authority it is entitled to, based on the copyright act or any other rule of law of the (international) intellectual property law, and particularly the rights to sketches, lithographs, photos, drawings and models, (installation) plans and the like designed or developed by Apollo Tyres, or rights to items belonging to Apollo Tyres as referred to in articles 14 and 15.
- 13.2 All documents provided by Apollo Tyres, including reports, recommendations, agreements, designs, sketches, drawings, software and the like, are only intended to be used by the customer, and cannot be multiplied, made public or provided to third parties as information by the customer without prior written approval from Apollo Tyres, unless the nature of the documents says otherwise.
- 13.3 In case of commissions from the customer to (re)produce items or information or data provided by the consumer that could possibly be subject to the intellectual property rights of third parties, the consumer indemnifies Apollo Tyres against all possible resulting claims from third parties.
- 13.4 Apollo Tyres is entitled to use items or services provided / manufactured by us in catalogues, advertising brochures, publications, advertisements or during exhibitions and trade shows with name, brand, advertising message or other statements of the customer without prior approval from the customer or third parties, without Apollo Tyres owing the customer or a third party any compensation.

14. SPECIAL GOODS

- 14.1 Customers guarantee the correctness, completeness and unambiguity of all the specifications, drawings, calculations and other data they provide us with, based on which we develop special goods for them. Apollo Tyres does not accept any liability in this regard.
- 14.2 Customers guarantee that the special goods which we develop based on specifications, drawings, calculations and other data they supply, are suitable for the purpose for which they are placed onto the market.
- 14.3 If the unsoundness of or defects in goods can be attributed to errors, omissions, lack of clarity or other faults in these specifications, drawings, calculations and other data, or if the special goods are not suitable for the purpose for which they were brought onto the market, the customer indemnifies us against all claims from third parties on that account. Moreover, the customer must pay us damages and remunerate any costs made.
- 14.4 The customer must evaluate the special goods within 14 days after we have shipped them. Unless we receive notice to the contrary within these 14 days, the goods will be considered to be approved.
- 14.5 Unless explicitly agreed otherwise, we maintain the right to manufacture special goods developed for the customer for third parties.

15. TOOLS, DRAWINGS, ETC

- 15.1 Unless agreed otherwise, moulds, dies, stamps and all other tools, drawings, designs, models and all other information connected to the production of specific goods made or commissioned by us are our property. Intellectual property rights pertaining to these tools, drawings, etc. are also our property.
- 15.2 If, in our opinion, tools, drawings, etc. owned by the customer must be replaced or repaired, the ensuing costs will be passed on to the customer. For maintenance, storage, insurance and the like, the customer will pay us an annual fee of 10% of the production costs with a minimum of € 250.
- 15.3 Tools, drawings, etc. provided to the customer by us may not be copied or given to third parties for use or inspection without our prior written permission. These items must be returned to us free of charge immediately after use or upon our request. The mere breaching of this provision incurs an immediately payable fine of € 25,000 per breach to our benefit and of € 2,500 for every day the breach continues, without prejudice to our right to the remuneration of damages and costs.
- 15.4 We maintain the right to dispose of tools, drawings, etc. owned by the customer, if these items have not been used for the customer for 12 consecutive months, unless the customer informs us that they would like to preserve the items at the latest one month before the aforementioned period ends.

16. APPLICABLE LAW

If our agreements and any resulting disputes and obligations are exclusively subject to Dutch law. The UN Convention on Contracts for the International Sale of Goods does not apply. This translation of the Dutch original is provided as a service only: In cases of dispute, the original Dutch version always takes precedence.

17. AUTHORISED COURT

Only the Dutch court, including the local judge, in the city of residence of Apollo Tyres is authorised to decide on any disputes between Apollo Tyres and the customer, unless it is explicitly determined otherwise and mandatory in accordance with the law or international conventions.

18. PROOF

With regard to the extent of the mutual obligations, our books and documents are deciding evidence unless the contrary is proved with all means.

Other specifications available price quoted upon request.

All passenger car and light truck tyres are tubeless.

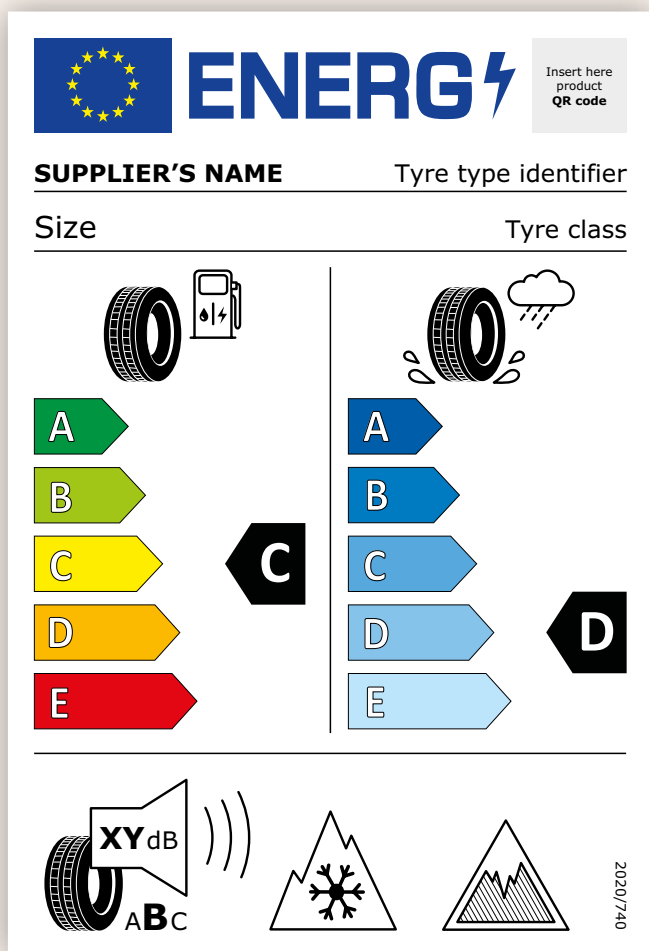

1. This list cancels all previous prices advised and is subject to alteration without notice.
2. Some orders may incur a handling charge. If this is the case you will be advised at the time of placing an order.
3. Orders delivered to alternative business/Private addresses, AM deliveries, Saturday deliveries, will incur an additional charge which can be obtained upon request. Please note - We cannot be held responsible for delivery delays caused by unforeseen circumstances - i.e. road works, accidents, weather conditions.

NOTES

[illegible]

TYRE LABEL

As part of the European Energy Initiative and in alignment with Regulation 2020/740, the Tyre Label gives an insight into the characteristics and performance of the tyre in five aspects. The label includes a QR code, linking to a –by the European Union approved and regulated– website, validating the data shown on the label.

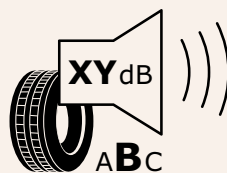

Rolling Resistance / fuel efficiency

Lower Rolling Resistance saves fuel. The values A to E indicate the effect on fuel consumption from low to high.

Grip on wet roads / braking performance

In the category 'Grip on a wet road surface', the classification A to E indicates the relative braking distance from short to long on a wet road surface.

Exterior noise level

The exterior Noise level is measured in dB, divided into three classes, ranging from A to C, whereas A stands for low-Noise and C for high Noise pollution for the environment. NB: External Noise does not fully correlate with the interior noise of the vehicle.

Ice Grip

The tyre label of a tyre which satisfies the minimum Ice Grip performance standards shall show the Ice Grip pictogram.

Snow Grip

If applicable, the 'Three Peak Mountain Snowflake' symbol (also referred to as 3PMSF) indicates that the product has been classified as a tyre for the use in severe snow conditions in accordance with strict European legislations. All Vredestein winter- and all-season tyres wear the 3PMSF marking.
